

Numbers 1 to 5

Early Elementary Math · September Week 1

Ages 5–7

Counting & Cardinality

LEARNING GOAL

Recognize numbers 1–5 and match them to quantities using one-to-one correspondence.

WARM-UP: "FIVE LITTLE DUCKS"

Sing "**Five Little Ducks**" together. Hold up fingers for each duck as you count down from 5 to 1.

ACTIVITY: NUMBER TOWERS

You need: Lego blocks (or similar), index cards with numbers 1–5

1. Build a tower with **1** block. Place the card **1** next to it.
2. Build a tower with **2** blocks. Place the card **2** next to it.
3. Build a tower with **3** blocks. Place the card **3** next to it.
4. Build a tower with **4** blocks. Place the card **4** next to it.
5. Build a tower with **5** blocks. Place the card **5** next to it.

Now mix up the cards! Can you match each number card to the right tower again?

PRACTICE: DRAW THE RIGHT NUMBER

Draw the correct number of circles in each box:

1	2	3	4	5
---	---	---	---	---

PRACTICE: COUNT AND WRITE

Count the objects and write the number:

★ ★ ★ ★ =

 =

  =

     =

PRACTICE: MATCH THE NUMBER

Draw a line from each number to the matching group:

2		● ● ● ●
4		● ●
1		● ● ● ● ●
5		●
3		● ● ●

 CAN YOUR CHILD...?

- ☐ Count 5 objects without skipping any
- ☐ Count 5 objects without double-counting
- ☐ Match the number "3" to a group of 3 things
- ☐ Point to the number "5" when asked

 **Easier:** Start with only numbers 1, 2, and 3. Don't rush to 5.

 **Harder:** Have your child write the numbers 1–5 in a tray of sand or salt using their finger.
